Full of Beans

Theme Overview

“Full of Beans” is a thematic unit, with a key focus on geography. It begins with pupils learning about different types of beans, how and where beans are grown and their nutritional value. They go on to look at beans as a source of energy, before moving on to learn about energy sources generally, both renewable and non-renewable. A business enterprise element enables pupils to create and sell bean smoothies.

Maths

In Maths we are going to continue with multiplication and division, find fraction, decimal and percentage equivalents and learn how to add and subtract fractions.

English

In English we will be writing a narrative text linked to ‘The Water Tower’ by Gary Crew. We will also be writing text for an advert to persuade people to purchase our products.

Art

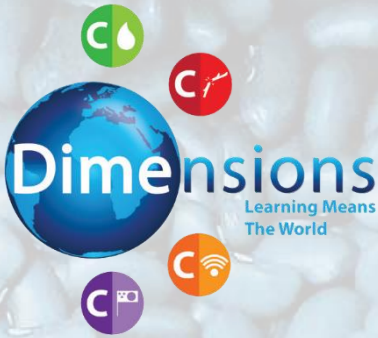

Painting - Shades of green

Dance

Zumba

Science

Electricity / Energy
